

O'SULLIVAN ARCHITECTS

FOR IMMEDIATE RELEASE

The Shops at Pairpoint – Exeter, NH

O'Sullivan Architects was recently honored by Plan NH with a Merit Award in the category of Private Preservation and Reuse for its work on The Shops at Pairpoint in downtown Exeter, NH. David O'Sullivan, AIA and Elliot Berkowitz of Pairpoint Group accepted the award on behalf of the project team. The Shops at Pairpoint is a mixed use development incorporating new construction and renovation of existing structures. In presenting the award, the judges cited the project's ability to fill in a gap in the fabric of the existing streetscape while incorporating a design harmonious with neighboring structures. There are retail, residential and office spaces as part of the development. The award was one of five Merit Awards presented to projects at Plan NH's annual meeting and award ceremony. Plan NH is a statewide organization dedicated to preserving and improving the quality of life in New Hampshire's communities through excellence in planning, design and development.

O'Sullivan Architects is a full service firm located in Wakefield, MA and provides architectural services throughout New England. Past and current projects include custom homes, multi-family complexes, commercial facilities, and educational facilities. O'Sullivan Architects are committed to their clients with a high level of service; providing a coordinated team to craft creative solutions for all of their building needs.
